This is the main content template. This contains details of how all pages work responsively and common content styling.

All emails

Main menu content template - referred to in the 'Main layouts'

Sub menu content template - referred to in the 'Main layouts'

Mobile menu layouts

Main heading relates to flowchart naming

Sub text refers to template to use for page

Page resolution

02.3 Types of arthritis

Template: Based on "03 - Managing Arthritis.at:03.3.1 Medicines"

1024px

02.3.1 Types of arthritis - content

Template: "Template - Content.at"

02.4 Areas of the body

Template: New page type

Text styling as per "Template - Content.at"

Pages within a **PINK** box are pages which can be adapted from an existing template. The 'Sub text' under the main heading refers to the appropriate template.

Pages with a **GREEN** overlay will use an existing template. The 'Sub text' under the main heading refers to the appropriate template.

Pages within a **ORANGE** box are pages which are unique and will most likely require a new template
